## Assignment –2

## **Introducing Relational Databases.**

- 1) Which field of the Customers table is the primary key?
- 2) What is the 4th column of the Customers table?
- 3) What is another word for row? For column?
- 4) Why isn't it possible to see the first five rows of a table?

## Solution.

	Assignment-2
A 1.	The Primary Key of the Customers table is the Court field It uniquely identifies
11111	is the Course little tustomers table
	is the Comma field It uniquely identifies
A2.	the table.
112	The 4th Column of customers toble is Snum.
	Into field represents the salesperson number
	associated with each customer.
A3.	Another word for row is record or type
	Another word for column is field or attribute
A4.	The table is empty, so there are no rows to
	display.
	There may be restriction on database occess
	that prevents from viewing the data.
	Could be a syntox error or an issue
	with the quely using to redrieve the rows
	and the same and the same to the same
